

# Safety, Health, And Environmental Policy - AMODyeChem

AMODyeChem, in its commitment to safety, health, and environmental responsibility, acknowledges the enduring example set by Atul, one of the oldest chemical companies in independent India. At AMODyeChem, we are dedicated to emulating global best practices in these areas. We understand that the performance of our employees and managers in Safety, Health, and Environmental (SH&E) aspects directly influences our overall performance.

#### 1. Hazard Identification And Assessment:

- Clearly label and identify all chemicals in the workplace.
- Assess and document the potential hazards associated with each chemical.
- Maintain up-to-date safety data sheets (SDS) for every chemical on-site.
- Educate employees about the risks and proper handling of each chemical.

### 2. Safe Handling And Storage:

- Train employees on the safe handling, storage, and disposal of chemicals.
- Use appropriate personal protective equipment (PPE) when working with hazardous chemicals.
- Store chemicals in well-ventilated areas, away from incompatible materials.
- Implement proper storage and shelving systems to prevent spills and accidents.

# 3. Emergency Preparedness:

- Develop and communicate clear emergency response procedures for chemical spills or accidents.
- Provide easy access to emergency equipment such as eyewash stations, safety showers, and fire extinguishers.
- Conduct regular drills and training exercises to ensure employees know how to respond to chemical emergencies.
- Establish a designated area for chemical spill containment and cleanup.

# 4. Regular Inspections And Maintenance:

- Conduct routine inspections of chemical storage areas to identify and address potential issues.
- Perform regular maintenance on safety equipment and ventilation systems.
- Monitor and replace expired or damaged chemicals and containers.
- Encourage employees to report any safety concerns or incidents promptly.
